

Bogdan Putiak

Front-End Developer

EXPERIENCE

JustSchool, Remote— *English Tutor*

MARCH 2024 - PRESENT.

EDUCATION

Lviv Polytechnic National University
— *Applicable Linguistics*

SEP 2022 - MAY 2023

PROJECTS

Spotify Music Controller — *Django / React / Material UI*

This app connects to the Spotify API using Django. User interface was done by using React and Material UI.

This app lets users join the rooms similar to chat rooms where they can vote to play the next song.

GymBro Website — *React / SCSS / HTML*

This project demonstrates my proficiency in React, a powerful JavaScript library for building dynamic user interfaces.

Leveraging HTML and SCSS and all of the best practices of React library. I've structured and styled this web application to be both functional and visually captivating.

CarRental — *React / SCSS / HTML*

This is a multi page application for the Car rental business. On this website you can explore car models that you can rent by leaving your contact info in the form.
